**WATER DISPOSAL SYSTEM, METHOD OF DISPOSING WATER,
AND POWER GENERATION APPARATUS**

Detailed Action

1. The amendments filed on May 13, 2010 were received. Applicant has amended claims 78 and 84; and, cancelled claim 79.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Election/Restrictions

3. This application is in condition for allowance except for the presence of claims 56, 57 and 61-77 directed to inventions non-elected without traverse. Accordingly, claims 56, 57 and 61-77 been cancelled.

Examiner's Amendment

4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Thomas Basso of K&L Gates on May 25, 2010 and May 26, 2010.

The application has been amended as follows: Cancel claims 47-51, 53, 54, 55, 58, 59 and 60.

Claim Rejections - 35 USC § 112

5. The rejection of claims 47-51, 53, 54, 55, 58, 59 and 60 under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement, is withdrawn because claims 47-51, 53, 54, 55, 58, 59 and 60 are cancelled.

6. The rejection of claim 84 under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention, is withdrawn because claim 84 was amended.

Claim Rejections - 35 USC § 103

7. The rejection of claims 78, 80, 81, 82, 84 and 87-92 under 35 U.S.C. 103(a) as being unpatentable over Sakakibara et al. (JP 02-168565), in view of Chizawa et al. (US 6,613,467), Wilson et al. (US 5,595,834) and Nishida et al. (US 6,660,419), is withdrawn because claim 78 was amended.

Reasons for Allowance

8. Claims 78, 80, 81, 82, 84 and 87-92 are allowed.

The following is an examiner's statement of reasons for allowance: The invention of independent claim 78 recites a power generation apparatus for generating electric power by supplying a fuel gas and an oxidizer. The power generation apparatus has a power generator with an electrolyte film disposed between first and second electrodes and a separator, which holds the power generator, with fuel and oxidizer supply grooves formed thereon. A water-absorbing member is provided at least on a midway portion of the oxidizer supply groove and has strip-formed regions extending in a direction perpendicular to the direction of the oxidizer groove. The water-absorbing member has a bonded, three-layered structure with a first material having a water-absorbing/releasing property, a second material with a water

Art Unit: 1795

absorbing property, and a tape material. The tape material has a rigidity that reduces any sagging of the strip-formed regions of the water-absorbing member discussed above. The closest prior art of record, Sakakibara et al., Chizawa et al., Wilson et al., Nishida et al. and Neutzler et al. (US 2002/0076599; see description below), do not teach the power generation apparatus as recited in claim 78.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

9. The following prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Neutzler et al. (US 2002/0076599) teaches a fuel cell device and method of forming the device including a plurality of hydrophilic thread for wicking the reaction water (Abstract; Fig. 3).
